

product: **Color Point - ACRYLIC ENAMEL**

Description

Fast drying paint, based on Acrylic modified resins.

Application areas

Suitable for fixing, decoration, retouching and finishing of any kind of paintable surfaces, for inside and outside applications.
After curing, it provides an elastic and very resistant coating to scratches, yellowing, corrosion and weathering.

Packing

400 ml spray can

Technical Data

Colour:		various	
Viscosity/20°C:		12	sec. F4
Can pressure:	(23°C)	4	bar
	(50°C)	8	bar
Skinforming time/20°C:		5 - 8	min.
Tack-free time/20°C:		15 - 20	min.
Drying time/20°C:		12 - 20	hours
Brightness:		80 - 85	Gloss
Yield:		0,95 - 1,1	mq/400ml

Instructions

Surfaces must be completely clean, dry, free of grease and rust. Eventually remove presence of old paint by sanding softly. Before use, shake can for at least 2 minutes. Spray several layers at a distance of 25 cm. If necessary, to get a better coating, spray again after 5 minutes.
After use, turn the can upside-down and press the valve for about 3 seconds to remove enamel residues.

Classification

Product classified as Dangerous (see Material Safety Data Sheet).

Additional warning: Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use.
Do not spray on a naked flame or any incandescent material.

Shelf life

18 months from production date, in original packing, at cool and dry place
